

Yang Li

Experimentalist

Email : ccyangli@jlu.edu.cn

SHORT BIOGRAPHY:

Yang Li obtained her B.Sc. at college of pharmacy from Jilin University in 2008. She then took a master of science degree at basic medical college from Jilin University in 2010. She worked as an experimentalist in institute of zoonosis from 2010, mainly engaged in TEM sample preparation and morphological observation, and assisted teacher Wang in laser scanning confocal microscopy and tissue sections.

RESEARCH INTERESTS :

- Virus, virus-like particles, phage, bacteria and many kinds of particles' morphological observation.
- Preparation, ultramicrotomy and ultrastucture observation of cells , tissue and bacteria.

SELECTED PUBLICATIONS :

- Runping Su, Li Yang, Yue Wang, Shanshan Yu, Yu Guo, Jiayu Deng, Qianqian Zhao, Xiangqun Jin. Formulation, development, and optimization of a novel octyldodecanol-based nanoemulsion for transdermal delivery of ceramide III_B. *International Journal of Nanomedicine*, 2017, 12: 5203-5221.
- Yu Zhou, Xiang-Li Tian, Yan-Song Li, Feng-Guang Pan, Yuan-Yuan Zhang, Jun-Hui Zhang, Li Yang, Xin-Rui Wang, Hong-Lin Ren, Shi-Ying Lu, Zhao-Hui Li, Qi-Jun Chen, Zeng-Shan Liu, Jing-Qiu Liu. An enhanced ELISA based on modified colloidal gold nanoparticles for the detection of Pb(II). *Biosensors and Bioelectronics*, 2011, 26: 3700–3704.
- Yu Zhou*, Xiang-Li Tian, Yan-Song Li, Yuan-Yuan Zhang, Li Yang, Jun-Hui Zhang, Xin-Rui Wang, Shi-Ying Lu, Hong-Lin Ren, Zeng-Shan Liu. A versatile and highly sensitive probe for Hg(II), Pb(II) and Cd(II) detection individually and totally in water samples. *Biosensors and Bioelectronics*, 2011, 30 (1): 310-314.
